

Eye Care Optical's Covid-19 Policies & Procedures

- If you or a family member has traveled outside of the country in the last 2 weeks or if you or a family member has been sick or had a fever in the last 2 weeks, please call our office to reschedule your appointment.
- If you are a new patient please print off the new patient forms which can be found on our website, fill them out, and bring them with you to your appointment. If you do not have access to a printer, paperwork will be available at the office.
- Please bring a mask with you to your appointment. We are requiring all patients to wear a mask during the eye exam and fitting/measuring of glasses.
- We ask that patients do not bring additional guests to the appointment as we need to limit the number of people in the office at one time. Exceptions to this include parents of minors and those acting as a caregiver.
- We are currently not accepting any walk ins. Appointments must be scheduled for all services including eye exams, adjustments, repairs, pick-ups, and to try on eyeglasses.
- A maximum of 8 people will be allowed in the store at once (including Eye Care Optical staff). This may mean that we will occasionally need to ask patients to wait in their cars until the doctor or optician is ready to see them.
- Please do not come more than 5 minutes early to your scheduled appointment. This will ensure that we have time to sanitize between patients and maintain a safe number of people in the office.
- Eye Care Optical staff will be regularly washing their hands and disinfecting all commonly touched surfaces such as door handles, chairs, dispensing desks, and all exam equipment, as well as all frames that are touched or tried on by patients.
